2	Hodesh Irgun is the opening month of the Bnei Akiva year. Each year, Bnei Akiva chooses an educational topic that represents the month's theme. During the month, each age group works together on a performance that includes: painting walls, practicing a show and many more intensive activities. The performance is presented to the parents by the chanichim on Shabbat Irgun- the Shabbat that concludes all the month's activities. This month is a great opportunity for chanichim to integrate within the Bnei Akiva movement.

7	The big attraction of the summer is the M-a-ch-a-n-e! The Machane, as opposed to the 'Massah', is divided into age groups. The age groups go to machane on different dates and for different durations of time, depending on the age of the chanichim. The experience includes hikes, building a camp fire, cooking meals, sleeping out under the stars and more. You wouldn't want to miss out!
